

Simply Beautiful®

Long-lasting color. Simple to choose. Simple to use.

14 in. (35 cm)

#48

Warm Season

The dark leaves of the foliage plants in this combination provide a beautiful contrast to the bright colors of the Marigolds and Petunias. Purple Knight Alternanthera tends to mature to a darker color in full sun, but will still offer the best performance with regular waterings and feedings. All of the plants in this container are very heat tolerant.
